**Please have all Appliances in place and be able to demonstrate your cooking operation when asking for a fire department inspection. We will have an extensive check list to go through. The inspection can take between 30 - 60 minutes. Listed here are some common issues that have held up the approval process.**

- **Fire Protection**
  - o A Type I Exhaust hood with welded seams and code complaint must be installed over any grease laden appliances. This includes flat top griddles, stoves and fryers
  - o Cooking equipment shall be properly protected by an automatic fire extinguishing system (Ansul system) that has been certified by a qualified fire equipment vendor.
  - o Each trailer shall have at least (1) multipurpose **5 lb.** ABC Fire extinguisher and at least (1) K Class fire extinguisher. (if more than 3 fryers, a 2<sup>nd</sup> K Class is required) Extinguishers shall be hung or secured adjacent to an exit.
- **Fuel Supply/ Electric Supply**
  - o Gas cooking appliances shall be secured in place and connected to a fuel supply with a listed flexible line. Appliances will also have the ability to be moved out for cleaning purposes.
  - o LP Gas storage cylinders shall not exceed 200 lb. capacity, and shall be securely mounted, restrained and protected from impact. Cylinders shall not be stored or transported inside the trailer. Cylinders shall be covered to protect from weather elements.
  - o LP Piping shall be secured and protected to prevent tampering and impact. All piping and cylinders shall be inspected by a third party registered by DOT to requalify LP gas cylinders.
  - o Cooking oil storage tanks, if applicable, shall comply with all codes with regard to storage and venting.
  - o Generators located on the exterior of the vehicle must be stored in enclosed vented housing to prevent public access. Compartments built into trailers shall vent to the exterior.
  - o All wiring must be in a safe approved manner
  - o Any canopies must be made of fire resistance material and be stamped as such.
  - o An LP Gas detector (commonly found on Amazon or an RV Supply house) shall be installed.
  - o A Carbon monoxide alarm shall be installed.

Re: Mobile Food Preparation Vehicle Inspection Affidavit

**Section 319.10.3 Fuels Gas Systems of the 2020 Fire Code of New York State states:**

LP-gas containers installed on the vehicle and fuel-gas piping systems shall be inspected annually by an approved inspection agency or a company that is registered with the U.S. Department of Transportation to requalify LP-gas cylinders, to ensure that system components are free from damage, suitable for the intended service and not subject to leaking. CNG containers shall be inspected every 3 years in a qualified service facility. CNG containers shall not be used past their expiration date as listed on the manufacturer's container label. Upon satisfactory inspection, the approved inspection agency shall affix a tag on the fuel gas system or within the vehicle indicating the name of the inspection agency and the date of satisfactory inspection.

This affidavit, section 1 and 2, must be completed annually and forwarded to the Oneida Fire Department - Fire Marshal's division in order to operate a Mobile Food Preparation Vehicle (Food Trucks) in the City of Oneida.
