Release Date: September 23, 2026
FOR IMMEDIATE RELEASE

Voluntary Water Conservation Notice (LIFTED)

The Voluntary Water Conservation Notice issued by the City of Oneida Water Department on August 24, 2026, is hereby lifted.

Reservoir and storage tank levels have recovered to satisfactory levels, allowing the Water Department to proceed with its upcoming annual hydrant flushing program.

We sincerely thank all of the residents and businesses who participated in the conservation effort and helped reduce water usage during this period. Your cooperation and support were greatly appreciated.
