CITY MANAGER MESSAGE

As we enter November and approach the holiday season, it is a natural time to reflect on where we have been as a community, where we are today, and where we are headed together.

This fall has been an especially busy one for the City of Oneida. From another successful Fall Festival to continued work on our parks, streets, infrastructure and downtown, our employees have continued working every day to provide the services our residents depend upon.

November is also a month in which we pause to recognize our veterans. As a veteran myself, Veterans Day has always held special meaning for me. Oneida has a proud tradition of honoring those who have served our country, and I encourage everyone to take a moment this November 11 to recognize our veterans and their families for the sacrifices they have made on behalf of all of us.

At City Hall, much of our attention this fall has also been focused on preparing the City's 2027 budget. There is no question that this has been a challenging process. Rising costs, years of structural pressures, and the need to protect the City's financial position required difficult decisions.

My responsibility as City Manager is not simply to prepare a budget for the coming year, but to help ensure that Oneida remains financially sustainable for the years ahead. The proposed 2027 budget was developed with that responsibility firmly in mind. It balances recurring revenues and expenditures without relying on General Fund balance to support ongoing operations, while continuing to provide the essential services our residents expect.

These decisions are not made lightly. I recognize that municipal taxes affect household budgets, particularly at a time when families are facing higher costs in nearly every part of their lives. Residents deserve both transparency about the challenges facing their City and confidence that their tax dollars are being managed carefully. Despite those challenges, there is much to be optimistic about.

Oneida continues to invest in its future. Major infrastructure improvements are underway or being planned, new housing is being developed, downtown revitalization continues, and we are pursuing opportunities to improve our parks, neighborhoods and public spaces. At the same time, we are working internally to make City government more efficient, accountable and financially sustainable.

None of that work happens without people.

I remain incredibly grateful for our City employees, who serve this community every day, and for the residents, businesses, volunteers and community organizations that continually step forward to make Oneida a better place.

As Thanksgiving approaches, I hope we all have an opportunity to spend time with the people who matter most to us and to appreciate the community we share.

There will always be challenges ahead, but I continue to believe deeply in Oneida and in what we can accomplish together.

Happy Thanksgiving to you and your families.

A Heartfelt Thank You to Former Mayor Helen Acker and Former Councilman Jim Coulthart!

The City of Oneida extends its sincere appreciation to former Mayor Helen Acker and former Councilman Jim Coulthart for their generous donation of an 85-inch television for the Common Council Chambers.

This thoughtful contribution will be a valuable addition to the Chambers, enhancing presentations, improving visibility, and providing a useful resource for Council meetings and other City business.

Having both served our community in public office, their continued generosity and commitment to the City of Oneida are truly appreciated.

Thank you, Helen and Jim, for your kindness, generosity, and continued support of our City!

DEPARTMENT UPDATES

One of the most common questions from residents is, “What's going on with the DRI, Hotel Oneida, Planning projects, and other developments throughout the City?” There's a great way to stay informed! At the second Common Council meeting of each month, City department heads submit reports highlighting their activities, ongoing projects, and updates from the previous month.

These monthly reports provide residents with valuable insight into what's happening behind the scenes, the progress being made, and the work taking place throughout our City.

Monthly Reports can be found in the “Attachments” section in the Agendas and Meetings tab.

Understanding the City's Budget Process

Preparing the City's annual budget is one of the most important and challenging responsibilities of local government. It involves much more than balancing revenues and expenses. It requires careful planning, cooperation, and difficult decisions to ensure that essential services are maintained while remaining mindful of the financial impact on taxpayers.

The process begins months in advance, with department heads working alongside the City Manager and financial staff to evaluate operational needs, anticipated expenses, and available resources. Rising costs, contractual obligations, infrastructure needs, and other financial challenges must all be considered when developing the proposed budget.

Once presented, the Common Council is responsible for carefully reviewing the proposal, discussing departmental priorities, exploring potential cost savings, and making decisions necessary to adopt a final budget. These decisions are not always easy, particularly during challenging economic times when available resources may not meet every need.

A municipal budget is more than numbers on paper. It reflects the services residents rely upon, the infrastructure that supports our community, and the City's commitment to responsible financial management.

While it may not be possible to meet every need or expectation, the goal remains the same: to adopt a responsible, sustainable budget that balances the needs of our community with the financial realities facing both the City and its taxpayers.

MADISON COUNTY RESOURCES FOR INDIVIDUALS EXPERIENCING HOMELESSNESS

Information for the City of Oneida • Mental Health • Public Health • DSS • Housing Resources

Purpose: To provide City of Oneida staff, first responders, and community partners with a clear overview of Madison County resources that can assist individuals experiencing homelessness, including behavioral health, public health, emergency assistance, housing stabilization, and supportive housing.

QUICK REFERENCE — WHERE TO START

Mental health / behavioral health crisis	Madison County Mental Health Crisis Line 315-366-2327 — press 1 to get connected to a crisis worker
Immediate life-threatening emergency	911
Homelessness / emergency assistance	Madison County DSS Individuals can present to the DSS lobby for an assessment and assistance.
Housing stabilization / housing programs	Community Action Partnership (CAP) Housing stabilization, homelessness prevention, supportive housing, transitional housing, rental assistance, and rapid rehousing.

1. MADISON COUNTY MENTAL HEALTH RESOURCES

2. MADISON COUNTY PUBLIC HEALTH RESOURCES

- Two full-time Community Health Worker positions provide information and referral services along with direct assistance on housing, insurance, food, and other needs.
- Housing Collaborative of Madison County was established in 2025 to increase healthy, accessible, and stable housing in Madison County. Information Available here: https://mcruralhealthcouncil.org/program/housing-collaborative/.

3. MADISON COUNTY DEPARTMENT OF SOCIAL SERVICES (DSS)

When an individual presents to the DSS lobby as homeless, DSS follows a practical, individualized process:

1. Meet with the individual and assess the situation.
2. Most often, help the person identify a resource—such as a friend, family member, or support person—for shelter.
3. Encourage and assist the individual in completing applications for financial assistance and/or ongoing services.
4. If the individual cannot identify a shelter resource, DSS can get the person to a shelter or when deemed appropriate pay for temporarily (a few days) while the individual applies for assistance.
5. Encourage and assist the individual in applying for housing programs through other agencies, including CAP and Liberty Resources.

Important: DSS does not provide housing directly. The assistance process is voluntary.

4. COMMUNITY ACTION PARTNERSHIP (CAP) — HOUSING RESOURCES

Community Action Partnership (CAP) provides housing stabilization and homelessness-related services that can be used in conjunction with DSS, Mental Health, Public Health, and other community resources. CAP offices: 3 East Main Street, P.O. Box 249, Morrisville, NY 13408 • 315-684-3144; 1001 New Market Drive, Canastota, NY 13032 • 315-697-3588. Additional offices in Oneida, Utica, Rome, and Ilion. www.capmadco.org

Sewer Collection System Improvements Referendum

Frequently Asked Questions | November 3, 2026

What is this referendum about? City voters will be asked whether to approve a bond resolution authorizing up to $3,000,000 for improvements to the sanitary sewer collection system. The project is intended to reduce inflow and infiltration (I&I), which occurs when clean groundwater or stormwater enters sanitary sewer pipes through cracks, leaking joints, deteriorated manholes, or other aging infrastructure.

Why does I&I matter?

Clean water entering the sanitary sewer system takes up capacity that should be reserved for wastewater from homes and businesses. During significant wet weather, sewer flows can increase substantially, placing added stress on the wastewater system.

What work would be done?

The project would focus on targeted sewer collection system improvements. Trenchless lining methods would be used wherever possible, allowing a liner to be installed inside existing sewer mains without digging up and replacing every section of pipe. Only the most deteriorated sections would require full pipe replacement. The City has inspected approximately **12,000 feet** of its roughly **40-mile** sanitary sewer system using CCTV to identify priority areas.

Who would pay for the project?

The cost would be paid through the **sewer system**, not the City general fund. During the July 7 meeting, it was clarified that repayment would be the responsibility of the sewer system, not residents outside the sewer system.

Why is this on the ballot?

The bond resolution is subject to a mandatory referendum. Voter approval is required before the City can proceed with the borrowing authorization.

What does each vote mean?

A YES vote means	A NO vote means
A YES vote means the voter approves the City moving forward with the bond authorization for the sewer collection system improvements. If approved, the City would be authorized to borrow up to $3,000,000. Final borrowing, project timing, and financing terms would depend on factors such as grant funding, final project costs, interest rates, and available financing options. A YES vote does not mean the City automatically spends the full $3,000,000 immediately. It gives the City legal authority to finance the project, subject to final project development and available funding options.	A NO vote means the voter does not approve the bond authorization. If the proposition is not approved, the City would not have voter authorization to borrow the funds for this project as proposed. The City would need to reassess the project scope, funding options, and timeline. The underlying sewer system issues would remain, and the City would need to determine how to address inflow and infiltration through other means.

Additional Questions

Does the City have grant funding?

The City is pursuing grant funding. Grant awards are typically announced later in the year or early the following year, so final grant information may not be available before the referendum.

Where can residents learn more?

Residents may contact the City Engineer's Office or visit the City's website for project information, maps, meeting materials, and future updates.

Why does the proposition mention up to 40 years?

The ballot uses legal bond language. The resolution authorizes financing for a period not exceeding 40 years, but that does not necessarily mean the City will borrow the full amount for the full period. Final terms would be determined later based on the best available financial options.

Is this document advocating for a vote?

No. This document is intended for informational purposes only and is not intended to advocate for or against the referendum proposition.

For more information, please contact the City Manager at klovell@oneidacityny.gov

A NEW TOOL TO HELP PROTECT YOUR PROPERTY IS COMING SOON

Madison County residents will soon receive information in the mail about new services designed to help protect property owners from deed fraud and other forms of real estate fraud.

In this week's ***Mike's Monday Message***, Madison County Clerk **Mike Keville** outlines key details about the upcoming program:

HOW THE SERVICES HELP PROTECT PROPERTY OWNERS

The new tools are intended to add an extra layer of monitoring and safeguards around real estate records. They aim to make it harder for fraudsters to file unauthorized documents that could affect ownership of your property.

WHY YOU SHOULD WATCH YOUR MAIL

Official information about how the program works, how to enroll or opt in if applicable, and what steps property owners can take will be arriving by mail. Watching for this correspondence is the best way to stay informed and take advantage of the protections.

PROPERTIES THAT CAN BE ESPECIALLY VULNERABLE

Vacant properties, seasonal camps, and properties involved in estate proceedings are often targeted because they may receive less frequent oversight. Owners of these types of properties are encouraged to pay close attention to the upcoming materials.

WHERE TO TURN WITH QUESTIONS

If you have questions once the information arrives, or if you need clarification about the program, contact the Madison County Clerk's Office. The services are being offered through a private company working in partnership with the County Clerk's Office.

KEEP AN EYE ON YOUR MAILBOX IN THE COMING WEEKS FOR MORE DETAILS.

Staying informed is one of the simplest and most effective ways to help safeguard your property.
