
Calling Oneida Gardeners!

City of Oneida Community Gardens 2024

It's time to think about getting outside, and the City of Oneida is excited to celebrate its 4th year of sponsoring the Community Gardens.

Would you like to grow lots of fresh veggies or flowers but don't have enough space? Interested in trying some new-to-you heirloom tomatoes, peppers and herbs to spice up your menu? Just need to get your hands in the dirt?

Each garden plot is a raised bed that measures 4 feet by 8 feet. Water is available at the site during daylight hours.

Space is limited to 20 beds and all are reserved on a first-come, first-served basis. This year we will be charging a nominal amount of \$20 per bed to help cover our costs. To make sure YOU have a place for gardening this year, contact Barbara Henderson, Oneida Planning Department, at 315-363-7467, ext. 164, by 3 PM on Friday, May 3rd.

We look forward to another great season of growing with you!
