Subject: Notice of Water Use Restrictions

Dear Water Customers,

Due to limited water supply and increased demand since the storm and power outages, we are implementing **voluntary water use restrictions** effective June 27, 2025, until further notice. These measures are necessary to ensure adequate water supply for emergencies, all customers, and to comply with local/state regulations.

Voluntary Restricted Activities:

- **Outdoor watering** (lawns, gardens, landscaping).
- **Washing vehicles**
- **Filling or refilling swimming pools**
- **Hosing down driveways, sidewalks, or patios**

We encourage all residents to practice water conservation both indoors and outdoors. Small actions – like shorter showers, running full loads in dishwashers and washing machines, and fixing leaks promptly – can make a big difference.

We appreciate your cooperation and commitment to responsible water use. If you have any questions or need assistance with conservation tips, please contact us at (315) 363-1490.
